Year to date

Revenue for the first nine months of 2026 is €17.8M, 71.8% of the €24.8M full-year target.

Commentary

Revenue grew 8.5% quarter over quarter. The August invoice sync outage led to €38,000 of service credits, recorded as a reduction of revenue. Gross margin reached the 79% annual target for the first time. Hiring accelerated in Q3 (+12 employees), as planned.

Risks

- Kestrel Health Partners (€96,000 ACV) is at risk of churn at its March 2027 renewal.
- ARR is €2.4M below the €26.5M year-end target; Q4 bookings must accelerate to close the gap.
